Announcements:

July 19th Back to School Bash—Downtown on City Square 6:00-9:00pm

CIVILITY PLEDGE

The way we govern ourselves is often as important as the positions we take. Our collective decisions will be better when differing views have had the opportunity to be fully vetted and considered. All people have the right to be treated with respect, courtesy, and openness. We value all input. We commit to conduct ourselves at all times with civility and courtesy to each other.

CITY OF HOSCHTON RULES OF DECORUM

The purpose of the Rules of Decorum is to foster an atmosphere of civil and courteous discourse, even and especially when discussing contentious topics, at all meetings held by the City of Hoschton.

a. Rules applicable to the public

1. Each speaker will be given 5 minutes during public comment.
2. Each speaker will direct his or her comments to the Mayor or presiding officers and not to any other individual present.
3. Each speaker will refrain from personal attacks, foul or abusive language, and will maintain a civil and courteous manner and tone.
4. Each speaker will speak only to the agenda item under consideration. This does not apply during the Public Comment agenda item.
5. Members of the audience will respect the rights of others and will not create noise or other disturbances that will disrupt the meeting.

b. Rules for Mayor and Members of Council, Committees, Boards, or Commissions

1. Members will conduct themselves in a professional and respectful manner at all meetings.

Comprehensive Plan Update to Capital Improvements Element and
Community Work Program

(Continued from last month)

CHAPTER 8
CAPITAL IMPROVEMENTS ELEMENT (CIE)
(2024 Annual Update)

SUMMARY

This document is an element of the City of Hoschton’s comprehensive plan. It specifies capital improvements for which development impact fees are charged in Hoschton. This capital improvements element (CIE) includes information for parks and open space and public safety (police). This annual update has extensive changes due to the city’s annexation of additional land and because of major rezoning actions that change the land use assumptions and the projections for facility needs.

REQUIREMENTS

To support a development impact fee program, the city’s comprehensive plan must meet state administrative rules for Capital Improvements Elements (CIEs).¹ The rules, among other things, require that, for each facility included in the development impact fee program, the following must be included: a service area must be established; a quantifiable level of service (LOS) standard must be specified; long-term needs (demands) shall be assessed; and a schedule of improvements identifying projects to be funded with impact fees during the next five years must be submitted and then annually updated after its adoption.

PROJECTIONS, FORECASTS, AND LAND USE ASSUMPTIONS

Total population is the sum of household population (i.e., persons living in households) and group quarters population (i.e., persons residing in nursing homes, jails, dormitories, etc.). Hoschton does not currently have any group quarters population. Occupied housing units are the same thing as households.

The city’s estimated population (100% decennial census population count) as of April 2020 was 2,666 persons living in 1,038 housing units (977 occupied), for an average household size of 2.73 persons per occupied dwelling unit (Source: U.S. Census Bureau, PL 94-171 data accessible at www.data.census.gov). All but about 40 of the 1,038 housing units were detached, single-family dwelling units. As of the decennial census, Hoschton did not have any fee simple townhouses or senior apartments. As of April 2020, only an estimated 31 dwelling units had been constructed within the Twin Lakes Planned Unit Development (PUD), which was annexed and zoned in 2018.

Based on review of building permit activity reports, the housing stock in Hoschton has more than doubled since 2020 to an estimated 2,472 units as of April 1, 2024. The increase in housing units has included detached, single-family dwelling units, fee-simple townhouses and age-restricted (senior) attached and non-attached units. Because of the diversification of types of units in Hoschton, the average household size of 2.73 persons per household in 2020 has been reduced slightly to an estimated 2.68 persons per unit as of April 1, 2024. Table 1 provides projections and forecasts for the city which were updated in May 2024.

Hoschton’s population in 2044 is projected to be 23,189 persons. Population growth in Hoschton is definitely not expected to be spread uniformly across the 20-year planning period (horizon). Rather, the vast majority of the new housing units in Hoschton will be constructed by 2029, with housing starts weighted proportionally much heavier in the next five years. The projections of housing units and population in Table 1 are based on the assumption that the city will buildout (almost entirely, if not entirely) its residential lands within the city limits during the twenty-year planning horizon (2044). As noted above, the city does not have any nursing homes or other “group quarters” population. The projections of population include the forecast that, later in the planning horizon, Hoschton will become home to one or more institutionalized residential living arrangements such as nursing or congregate care homes, adding 280 persons in group quarters.

Hoschton has a relatively modest economic base, consisting of restaurants, retail trade establishments, services, and institutions and industries. Employment data for transportation analysis zones (TAZs), prepared as a part of the Jackson County Transportation Plan in 2019, were used to prepare employment estimates for this CIE. For projections and forecasts, the city’s consulting planner utilized a

buildout analysis of nonresidential lands and estimated employment on the basis of 1 employee per 1,000 square feet of nonresidential space of new nonresidential development. Employment increases are forecasted to also be more heavily weighted during the five years rather than being spread evenly over the 20-year planning horizon.

Hoschton’s impact fee program includes public safety facilities and services (police). The service population for police is the population plus employment, or in other words, the “functional” population. As indicated in Table 1, the population is added together with employment to determine the functional population.

PARK AND OPEN SPACE LAND

Service Area

The service area for park and open space land is the city limits.

Inventory

Table 3 shows the inventory of park and open space lands within the City of Hoschton as of May 2024. The inventory does not include part of a ballfield that is owned by the Jackson County Board of Education, since the city does not own that portion of the ballfield.

Existing Level of Service (LOS) and Level of Service Standard

Since residents are the users of park and open space lands, the level of service measure and standard for park and open space land is based on the residential population. The city established the following level of service measure in the first CIE in 2020: acres of park and open space land per 1,000 residents.

In the initial CIE, adopted in September 2020, the city adopted a level of service standard for park and open space land of 5.33 acres per 1,000 residents, the same as the existing level of service in 2020.

Since 2020 and the adoption of park and open space impact fees, the city has added significantly to its park land but has also added thousands of new residents. The existing level of service for park and open space land in Hoschton as of May 2024 is 37.10 acres of park and open space land for 6,645 residents, or 5.58 acres per 1,000 resident population. Thanks to the substantial purchase of additional park and open space land via from the Blankenship family, the city has kept up with rapidly increasing demands and has a very slight surplus of land as of May 2024. The existing level of service of 5.58 acre per 1,000 exceeds the adopted level of service standard of 5.33 acres per 1,000. However, the current surplus will be short lived, because of even more intensive population growth projected during the next five years as described further in the next section.

Assessment and Projection of Demands

Table 4 provides a projection of park and open space land demands based on the projected residential population. The city has a current park and open space land inventory of 37.10 acres as of 2024 (see Table 4 above).

**Table 4
Projection of Park and Open Space Land Demands, 2024-2044
(@ Current Level of Service Standard of 5.33 acres per 1,000 Residents)
City of Hoschton**

Type of Land	2024	2029	2044
Total Population	6,645	14,573	18,823
Cumulative demand for new park and open space acres (@ LOS standard of 5.33 acres per 1,000 residents)	35.10	77.67	100.32

Source: Jerry Weitz & Associates, May 2024.

Looking at the population growth projected during the upcoming five years, at the adopted level of service standard of 5.33 acres of park and open space land per 1,000 residents, the city would have to add another 42.57 acres of park and open space land in just five years, meaning the current inventory would have to more than double in size. That substantial additional demand is based on expected residential development of “Tribute” planned unit development and development of other extensive rezonings for additional dwelling units in 2023. Looking at the entire 20-year planning horizon,

Hoschton's park/open space land inventory would have to increase to more than 100 acres (a 200% increase) to meet the currently adopted level of service standard.

There are several reasons why maintaining the adopted level of service standard of 5.33 acres per 1,000 residents is problematic in the future. First, the accelerated pace of development in Hoschton means that the supply of tracts of land inside the city limits that are vacant and available for purchase by the city for park and open space land is dwindling substantially. It appears increasingly unrealistic that the city will be able to purchase land within the city limits to meet the adopted park and open space land standard of 5.33 acres per 1,000 population.² The city must spend its park and open space impact fees within the service area which is the city limits, so purchasing land outside the city with impact fees is not an option.

Secondly, the vast majority of the population growth that is anticipated in Hoschton will occur within planned unit developments, which by definition provide 20 percent or more of the land area as open space. This means that some of the demands for park and open space land are anticipated to be met with open spaces and parks within these new planned unit developments. This is another reason to consider and adopt a reduced level of service standard for park and open space land.

Another factor that positively supports a reduction of level of service standard is that the city currently meets and exceeds the adopted level of service standard for park and open space land. This means it is a most opportune time to change the level of service standard, if necessary, because there is no current "deficiency" of park and open space land that would have to be funded with monies other than impact fees.

Revised Level of Service Standard

For the reasons provided in the foregoing paragraphs, this Capital Improvements Element includes a formal change in the level of service standard from 5.33 acres per 1,000 population to a lower standard of 4.00 acres per 1,000 population. The city hereby adopts the level of service standard of 4.00 acres per 1,000 for the city's impact fee program. Even at this newly adopted level of service standard, the city will still have its work cut out for itself, because it is still an extensive amount of land to acquire.

Table 5 shows the demands for park and recreation land and the revised/readopted level of service standard. Even with the lower standard, the city will still have extensive park and open space land acquisitions required to maintain the newly adopted standard of 4.00 acres of park and open space land per 1,000 residents. During the next five years, the city will need to add 21.19 additional acres to its current (2024) supply of park and open space land. And during the 20-year planning period (2044), the city will need to add 38.19 acres to its park and open space inventory.

² The city's rezoning of the Pirkle tract included conditions of approval that require the extensive dedication of open space land at or about the time that property develops. However, due to the change in ownership of the Pirkle tract, future development is expected to change, and development of that tract is not imminent. Because it may be years before that tract develops, the city is unable to count on the dedication of additional open space land from the Pirkle tract that would count toward meeting the currently adopted level of service standard for park and open space land.

LAW ENFORCEMENT (POLICE AND MUNICIPAL COURT)

Hoschton was served exclusively by the Jackson County Sheriff for sworn officer law enforcement functions, but as of August 2021 the city hired a police chief and established its own police force. Jackson County Sheriff’s Department still serves backup functions and covers time periods when city police are not working. Since establishment of the police department, the city has added additional personnel.

Service Area

The service area for law enforcement (police and municipal court) is the city limits of Hoschton.

Inventory

In 2023, Hoschton opened its new city hall and community center at City Square. The building that used to be city hall (3,188 square feet at 79 City Square) was then devoted exclusively to police and municipal court space. The inventory is shown in Table 7.

Level of Service (LOS) Measures and Standards

Since both residential and nonresidential development are served by law enforcement facilities and services, the level of service measure and standard for police facilities are based on the functional population.

In September 2020, the city adopted a level of service measure for law enforcement (police and courts) of square feet of police building space per functional population. Police vehicles are not included in the impact fee program, because they do not qualify as “capital improvements” (i.e., they do not have a useful life of 10 years or more). In September 2020, the city adopted a level of service standard for law enforcement (police and court) facilities of 0.95 square feet of police building per functional population. No change is proposed to the adopted level of service standard.

Assessment and Projection of Demands

Table 8 provides a projection of police and court (law enforcement) space needed.

**Table 8
Projection of Police and Court Building Space Demands, 2024-2044
City of Hoschton**

	2024	2029	2044
Functional population of Hoschton	7,645	18,128	23,189
Cumulative new police and court building space (square feet) needed (@ LOS standard of 0.95 square feet per functional population)	7,262	17,221	22,029

Source: Jerry Weitz & Associates, May 2024.

With a current inventory of 3,188 square feet, the city is currently far short of meeting the current demand for police facility space. There is a current deficiency of 4,074 square feet of law enforcement space that must be reconciled (paid for and provided) by the city within a reasonable period of time without using impact fees (except for those fees that have already been collected and have not been expended). In other words, except for current police facility impact fee balance of funds, the 4,074 square feet of additional space needed is attributed to the existing functional population and cannot be funded with impact fees from new development. That point is factored into the schedule of improvements below.

By 2029, the city will need 17,221 square feet of police and court space to serve the projected functional population, plus it will ultimately want to plan for the replacement of existing space (3,188 square feet) as a result of relocation of police facilities to a new building. This means the city needs to plan for a police and court facility space of 20,409 square feet by 2029. By 2044, the city will need to plan for 25,217 square feet of police/court space.

Schedule of Improvements

The schedule of improvements for police and court facility space is provided in Table 9. Increases in residential population and employment (i.e., the “functional” population) will create the need for a substantial capital improvement (building space) for law enforcement. Keeping in mind that the city will move all of its police facility spaces and municipal court into a new facility and free up the current space at 79 City Square for commercial space, the city must factor in the replacement of the 3,188 square feet of space now used for police and court but which will no longer be utilized. Hence, the future building improvement must take into account the current deficiency of 4,074 square feet, plus the total existing inventory that will be discontinued (3,188 square feet), for a total of 7,262 square feet. The city is able to utilize all law enforcement impact fees currently held, for the purpose of building new facilities.

COMMUNITY WORK PROGRAM (2024 ANNUAL UPDATE)**

The community work program is amended to add a new year (2024), to drop year 2023, to remove projects that have been completed, and to add additional projects proposed by the city. The Community Work Program (2024-2028) provides a list of specific activities that the community plans to address as immediate priorities. This work program is updated annually because the city has adopted a capital improvements element (CIE) for development impact fees.

Subject: budget line item for FY 2025-- low flow toilet rebate program

Good afternoon:

According to census reports, Hoschton had approximately 200 single family occupied structures in 1990. Without a detailed and expensive survey, one could assume that each structure had two restrooms for a total of potentially 400 high flow toilets in Hoschton. One could also assume that the general public likely won't replace the units until there's an issue. Likely, the most replacements in a year would be say, 10 per cent or 40.

40 units at \$100.00 each would equate to an annual budget cost of \$4,000.

I think that would be more than adequate

RESOLUTION NUMBER 2024-25
A RESOLUTION OF THE CITY COUNCIL OF
THE CITY OF HOSCHTON, GEORGIA
AUTHORIZING THE DEVELOPMENT OF A TOILET REBATE PROGRAM
SAID RESOLUTION ALSO AUTHORIZES
THE MAYOR AND CLERK TO EXECUTE APPROPRIATE
DOCUMENTS FOR IMPLEMENTATION OF THE PROGRAM

WHEREAS, the City of Hoschton, Georgia continues to grow and experience increased demand on the potable water distribution system, and

WHEREAS, the City of Hoschton, Georgia has adopted a water conservation plan as required by the Georgia EPD, and

WHEREAS, water conservation is an important activity in the City and a large portion of water supply is utilized in older toilet fixtures, and

WHEREAS, the City of Hoschton is striving to become a WaterFirst designated community, and

WHEREAS, aggressive and initiative-taking water conservation measures are paramount in achieving WaterFirst designation, and

WHEREAS, the City encompasses a number of older home with older plumbing fixtures, and

WHEREAS, the City desires to develop a toilet rebate program commensurate with numerous other Georgia Cities, and

WHEREAS, a toilet rebate program would incentivize the replacement of high volume older plumbing fixtures with low flow fixtures, and

WHEREAS, a toilet rebate program is expected to reduce the City's daily water demand and reduce a participating water user's monthly water cost.

NOW THEREFORE be it resolved by the City Council of the City of Hoschton to authorize the development of a toilet rebate program in accordance with the Georgia Water Wise Council and commensurate with other similar situated Georgia local Governments.

BE IT FURTHER RESOLVED to authorize the Honorable Debbie Martin, Mayor, and City Manager/Clerk, Jennifer Kidd-Harrison to execute the procedures and other appropriate documents on behalf of the City.

THIS RESOLUTION READ AND PASSED BY A QUORUM OF THE CITY COUNCIL OF THE CITY OF HOSCHTON, GEORGIA, ON THE _____ DAY OF _____, 2024 AND HAS NOT BEEN RESCINDED IN ANY WAY.

**Memorandum of Understanding
Extraterritorial Assistance**

THIS MEMORANDUM OF UNDERSTANDING ("MOU") is entered into on the _____ of _____ 2024, by and between the City of Hoschton by and on behalf of the Hoschton Police Department and the Jackson County Sheriff's Office. City of Hoschton Police Department and the Jackson County Sheriff's Office are hereinafter collectively referred to as "Party" or "Parties." This agreement incorporates by reference standards contained in O.C.G.A. §36-69-1 *Et seq.*, including subsequent amendments thereto.

WHEREAS, where responses to emergency or special circumstances may exceed the immediate resources, skill, and equipment capacities of either Party's law enforcement agency, the City of Hoschton Police Department and the Jackson County Sheriff's Office may request that the other Party provide certified police officers to assist in providing law enforcement services.

WHEREAS, pursuant to O.C.G.A. § 36-69-1 *et seq.*, the Jackson County Sheriff's is authorized to furnish assistance extraterritorially to City of Hoschton Police Department upon the approval of the Sheriff of Jackson County with this MOU.

WHEREAS, pursuant to O.C.G.A. § 36-69-1 *et seq.*, City of Hoschton Police Department is authorized to furnish assistance extraterritorially to the Jackson County Sheriff's Office with the approval of the Chief of Police for the City of Hoschton, with this MOU.

NOW, THEREFORE, the parties agree as follows:

1. **Purpose:** The purpose of this MOU is to permit each Party to assign law enforcement officers to the other Party for law enforcement services within Jackson County, Georgia or the City of Hoschton as requested by the law enforcement agencies of the Parties. In accordance with O.C.G.A. § 36-69-8, nothing in this MOU shall be construed as creating a duty on the part of the Parties to respond to a request for assistance, or to stay at the scene of a local emergency for any length of time.
2. **Requests:** Requests for assistance may be made by the Chief of Police, of the City of Hoschton Police Department or the Sheriff of Jackson County to include their designee in a local emergency, in the prevention or detection of violations of any law, in the apprehension or arrest of any person who violates a criminal law of this state, or in any criminal case.
3. **Authorities:** The senior officer of the requesting Party shall be in command of the local emergency as to strategy, tactics, and overall direction of the operations.
4. **Powers and Duties of Responding Personnel:** In accordance with O.C.G.A. §36-69-4, responding employees of either Party "shall have the same powers, duties, rights, privileges, and immunities as if they were performing their duties in the political subdivision in which they are normally employed."

5. Responsibility for Expenses and Compensation of Employees: Parties responding to requests in conformance with this MOU shall pay any expense for furnishing of their own equipment, loss or damage to such equipment, and costs incurred in operation and maintenance of their equipment. Responding Party shall compensate responding employees during the time they are rendering aid and defray actual travel expenses of employees. Compensation shall include compensation due to personal injury or death while employees are rendering aid. (O.C.G.A. § 36-69-5.)
6. **Effective Date:** This agreement shall take effect upon execution and approval by the hereinafter-named officials, including the City of Hoschton City Council, and shall continue in full force and effect unless terminated by any or all of the parties herein.

WHEREFORE, the parties hereto cause these presents to be signed on the dates listed below.
